

# 電力系統

產品名稱	耐候重電漆	類別/產品編號	維修物料/PA-003
<p>用途/功能說明： 用於變電站主變壓器(MTR)及自耦變壓器(AT)屋外散熱鰭片，因MTR與AT散熱鰭片置於屋外，受風吹日曬雨淋，故定期須重新除鏽噴漆，確保設備使用無虞。</p>			
<p>規範需求： 型號:5Y 7/1、AB兩劑型、屋外耐候型。</p>			
<p>照片說明：</p> <div data-bbox="474 753 899 1236">A close-up photograph of three vertical, white-painted cooling fins from a Toshiba AT transformer. The fins are mounted on a metal base. A black label with the word 'TOSHIBA' in white capital letters is visible at the top of the fins. The number 'AT1' is visible on the base.</div> <div data-bbox="1091 753 1800 1236">A photograph showing a large outdoor transformer structure with multiple cooling fins. The structure is made of metal and is situated outdoors under a concrete overpass. The background shows some greenery and a clear sky.</div>
